

American GI Forum of California Archives

Historical Occasion!!

UCLA Will Archive Our Records

An opportunity to have the American GI Forum of California history stored in a Collection for perpetuity. Let us tell our story, from the beginning, the struggles we've been involved in, and

the people that have dedicated themselves to work with and continue the legacy of our Founder, Dr. Hector P. García.

UCLA has informed the AGIF/CA that they are ready to start sorting through our materials. All types of information are appreciated and encouraged.
